Genetic Testing and HD

Join us for a talk on the role genetic testing can play in empowering people living with HD and their families to make informed decisions.

Presented by Augustana University genetic counseling students Sophia Izzo and Kendall Massey.

Taking place at the HDSA San Diego Chapter's monthly in-person support group for those living with Huntington's disease, families, and caregivers from 5:00–6:30 PM at the UCSD Medical Center in La Jolla (9444 Medical Center Dr., 92037), room 3-007.
