2022 San Diego Chapter Sponsorship Beer and Bingo

(see entire list of events for additional opportunities)

According to Fodor.com, San Diego is the “international leader in the craft beer industry” and sandiego.org reports that we have over 150 breweries plus tasting rooms. San Diegans love their beer!

We will be taking advantage of this love of beer to host a beer and bingo night for HDSA. Entry fees, card purchases, and percent of sales are all expected to bring in funds for HDSA San Diego.

Your sponsorship will include your logo on all of the bingo cards, signage at the event, as well as all pre- and post- communication.

ABOUT HUNTINGTON'S DISEASE

Huntington's disease (HD) is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years.

The symptoms of HD are described as having ALS, Parkinson's & Alzheimer's – *simultaneously*. Huntington's disease manifests as a triad of motor, cognitive and psychiatric symptoms and worsens over a 10 to 25 year period.

Each child of a parent with HD has a 50/50 chance of inheriting the faulty gene that causes HD. Today, there are approximately 41,000 symptomatic Americans and more than 200,000 individuals at-risk of inheriting the disease.

There is no cure...yet.
