Team Hope Walk is a short, easy and non-competitive stroll that most anyone can complete. Come **meet other families impacted by Huntington's disease**, learn about **HDSA San Diego's programs**, meet the board, **win prizes**, and meet representatives from agencies related to HD support and research—all to raise money in support of HDSA's fight to improve the lives of people affected by HD and their families!

HDSA San Diego is working to make real and tangible impact for families dealing with Huntington's disease. We have developed and posted a **comprehensive resource list** that includes both local and national help. We are working towards hiring a local **social worker**, created a dedicated **family services volunteer committee**, host quarterly **education days**, and so much more!

This event will help support our programs and raise the funds needed to provide our Centers of Excellence with grant support. So please come out and join us.

Registration is free!
